

Jose Alvarado

Agentic developer

Summary

Jose Alvarado is an agentic developer. He builds agents people can book. He is studying for two certificates and has not earned them yet.

Skills

Agentic workflows, booking flows, study plans, inbox triage.

Experience

Agentic developer, now. The public work is this website and three starters: Site booking, Study agent, and Inbox agent. There is no company list here yet. None of the starters is a shipped product.

Projects

Site booking - in progress. The home page form is the visible request. It stays in the browser.

Study agent - in progress. A daily plan for the two certificates below. Nothing to launch.

Inbox agent - in progress. A brief in, a plan out, and a check before anything is sent. No mailbox is connected.

Education

GitHub Certified Agentic AI Business Professional - in progress, not earned.

Microsoft Agentic AI Developer - in progress, not earned.
